The selectmen of Amherst, Mass., in session Saturday afternoon, granted to the Northampton and Amherst Electric railroad company, of which E. C. The two remaining girders for the Main used on the bridge arrived during the present week. Work on the bridge was resumed Sunday, and during the week the strips of iron plate, which make the foundation for the roadway, have been put in place on the girders already in position, and have been partially riveted to them. F. S. Crosby was very much surprised disappointed Monday when, draining the water from his artificial trout pend it was found that only about 40 trous remained. Nearly four bushels of horned pout were picked up, however, which accounts in some degree for the scarcity of the other fish. The pond, which is situated upon the Putney road about four miles from this town, was supposed to have been literally alive with trout, and it was hired by a syndicate of local sportsmen for the last three seasons. Fewer fish than usual had been caught out of the pond this year, and the disclosure made by drawing off the water confirms the belief held by some of the frequenters of the pond that the trout had been killed by horned pout. Mr. Crosby killed all of the pout, and will restock the pond with trout next spring. is thought that the pout got into the poud from one of the streams which fed it.

A SHOCKING ACCIDENT

Old Son of Mr. and Mrs. Frank L. Hant.

A happy household was plunged into the deepest sorrow it had ever known and grief was felt throughout the entire community Saturday in consequence of the accident which ended the life of Samuel Lyman Hunt, the five-year-old son of Mr. and Mrs. Frank L. Hunt. He was the youngest child and the only boy in a family of six children, among whom death had previously caused only one break. He bore the name which had been given to the first born son in the Hunt family for several generations. He was a handsome, bright, attractive child and a favorite with many who are undoubtedly the two of the acquaintances of the Hunt family.

The children had a nerry time at din ner, and afterward Lyman, as he was gen erally known, and his sister Gertrude went out to the barn to play. The hired girl soon called to them to come in and get some "frosting" and Gertrude responded. As the boy did not come his sister Ellen went out to the barn and found that the vestibule storm door frame had failen up ages, too, Dn Souchet being 46 while on him. Her screams attracted the atten tion of the hired girl, who called to Mrs. Hunt. The girl and Mabei Hunt, one of the older children, lifted the frame and Mrs. Hunt took her son in her arms and carried him into the house. Drs.
